

Awakening Consciousness

"Developing your Awareness"

This is an ongoing class that helps you learn and build your understanding of Clairvoyance, Clairaudience, and Clairsentience through the introduction of tools and techniques. We will practice various techniques such as Psychometry, Photometry and how to use divination tools such as gemstones, pendulums and more. You are not required to have previous experience but do need to have an open mind. This is a hands on class so be ready to use your intuition.

We all have various degrees of intuition but just might not know how to use it or forgot how to access it. With this class you will learn different techniques on how to re-awaken this part of you, learn how to recognize and balance your abilities and use your skills with positive intent. Through this process you are awakening your conscious mind to your connection with Source.
